

## Patricia Palacios' LIST OF PUBLICATIONS

### JOURNAL ARTICLES AND CONTRIBUTIONS

- Stock Market Crashes as Critical Phenomena?: Explanation, Idealization and Universality in Econophysics [with [J. Jhun](#) and [J. Weatherall](#)], *Synthese*, (forthcoming)
- Had We But World Enough and Time... But We Don't! Justifying the Thermodynamic and Infinite-time Limits in Statistical Mechanics, *Foundations of Physics*, 48 (5):526-541, 2018

### BOOK REVIEWS

- Review of 'Chance and Temporal Asymmetry', Alistair Wilson (ed.), *International Studies in the Philosophy of Science*, vol. 3, Issue 2, 2016.

### IN PREPARATION

- "Phase Transitions: A Challenge for Reductionism?" Manuscript.
- "On the Universality of the Hawking Radiation" [with [K. Thebault](#) and [S. Gryb](#)].
- "The Ehrenfests' on statistical mechanics II: Phase transitions", invited for inclusion in the volume *Tatjana Afanassjewa and her Legacy: Philosophical Developments to the Work of a Great Mathematical Physicist*.
- "What Makes Scale Invariant Models Explanatory?" [with [J. Jhun](#)]
- "Redefining equilibrium for Long-range Interacting Systems", [with [Lapo Casetti](#)]
